6 January 2015

Dear Resident

**Redevelopment of Hillpark House, 37 Townhill Road**

As a close neighbour to the above property you will have noticed over recent months that work has begun on the site. I wanted to give you advance warning that the demolition of the house and garage is now also imminent.

We have appointed the Purvis Group as the main contractors to carry out this work. At the time of writing they anticipate that they should be starting work around 12 January. It is estimated that the process will take approximately 2 weeks to complete.

We appreciate that the development of the site will cause some disruption to the local area and to owners of the neighbouring properties. However we wish to assure you that we shall at all times attempt to minimise such disruption and keep you informed when any major work is due to be carried out. In any case, once the demolition has been completed there is unlikely to be any further major work for some months whilst we continue to evaluate our options with our architect.

Thank you in advance for your understanding.

Yours sincerely

Clare McCabe  
McCallan Homes Ltd.
